

THIRD EDITION

Designing Interactive Systems

A comprehensive guide to HCI, UX and interaction design

David Benyon

Contents

Guided tour	xii		
Preface	xv		
Publisher's acknowledgements	xxv		
Part I			
Essentials of designing interactive systems			
Introduction to Part I	2		
1 Designing interactive systems: a fusion of skills	5		
Aims	5		
1.1 The variety of interactive systems	6		
1.2 The concerns of interactive systems design	9		
1.3 Being digital	13		
1.4 The skills of the interactive systems designer	18		
1.5 Why being human-centred is important	20		
Summary and key points	22		
Exercises	22		
Further reading	22		
Web links	23		
Comments on challenges	23		
2 PACT: a framework for designing interactive systems	25		
Aims	25		
2.1 Introduction	26		
2.2 People	27		
2.3 Activities	33		
2.4 Contexts	34		
2.5 Technologies	36		
2.6 Scoping a problem with PACT	43		
Summary and key points	44		
Exercises	45		
Further reading	45		
Web links	45		
Comments on challenges	46		
3 The process of human-centred interactive systems design		48	
Aims		48	
3.1 Introduction		49	
3.2 Developing personas and scenarios		55	
3.3 Using scenarios throughout design		62	
3.4 A scenario-based design method		66	
Summary and key points		73	
Exercises		73	
Further reading		73	
Web links		74	
Comments on challenges		74	
4 Usability		76	
Aims		76	
4.1 Introduction		77	
4.2 Accessibility		77	
4.3 Usability		81	
4.4 Acceptability		84	
4.5 Design principles		86	
Summary and key points		90	
Exercises		91	
Further reading		91	
Web links		91	
Comments on challenges		92	
5 Experience design		93	
Aims		93	
5.1 Introduction		94	
5.2 Engagement		95	
5.3 Designing for pleasure		99	
5.4 Aesthetics		102	
5.5 Service design		104	
Summary and key points		107	
Exercises		107	
Further reading		107	
Web links		108	
Comments on challenges		108	

6 The Home Information Centre (HIC): a case study in designing interactive systems	109	Summary and key points	184
Aims	109	Exercises	184
6.1 Introduction	110	Further reading	185
6.2 Scenarios for the HIC	111	Web links	185
6.3 Evaluating early interface prototypes	119	Comments on challenges	185
6.4 A first design	122	9 Design	187
6.5 The second interface design	126	Aims	187
Summary and key points	131	9.1 Introduction	188
Exercises	131	9.2 Conceptual design	188
Further reading	132	9.3 Metaphors in design	191
Web links	132	9.4 Conceptual design using scenarios	196
Comments on challenges	132	9.5 Physical design	202
Part II		9.6 Designing interactions	206
Techniques for designing interactive systems	135	Summary and key points	211
Introduction to Part II	136	Exercises	212
7 Understanding	138	Further reading	212
Aims	138	Web links	212
7.1 Understanding requirements	139	Comments on challenges	213
7.2 Participative design	141	10 Evaluation	214
7.3 Interviews	142	Aims	214
7.4 Questionnaires	146	10.1 Introduction	215
7.5 Probes	152	10.2 Expert evaluation	217
7.6 Card sorting techniques	153	10.3 Participant-based evaluation	220
7.7 Working with groups	156	10.4 Evaluation in practice	224
7.8 Fieldwork: observing activities <i>in situ</i>	157	10.5 Evaluation: further issues	230
7.9 Artefact collection and 'desk work'	161	Summary and key points	233
Summary and key points	163	Exercises	234
Exercises	163	Further reading	235
Further reading	164	Web links	235
Web links	164	Comments on challenges	236
Comments on challenges	165	11 Task analysis	238
8 Envisionment	166	Aims	238
Aims	166	11.1 Goals, tasks and actions	239
8.1 Finding suitable representations	167	11.2 Task analysis and system design	241
8.2 Basic techniques	168	11.3 Hierarchical task analysis	243
8.3 Prototypes	175	11.4 GOMS: a cognitive model of procedural knowledge	245
8.4 Envisionment in practice	180	11.5 Structural knowledge	246
		11.6 Cognitive work analysis	250
		Summary and key points	252
		Exercises	252
		Further reading	252
		Web links	253
		Comments on challenges	253

12 Visual interface design	255	Summary and key points	339
Aims	255	Exercises	339
12.1 Introduction	256	Further reading	339
12.2 Graphical user interfaces	257	Web links	340
12.3 Interface design guidelines	263	Comments on challenges	340
12.4 Psychological principles and interface design	270		
12.5 Information design	279	15 Social media	341
12.6 Visualization	282	Aims	341
Summary and key points	286	15.1 Introduction	342
Exercises	286	15.2 Background ideas	345
Further reading	286	15.3 Social networking	351
Web links	287	15.4 Sharing with others	355
Comments on challenges	287	15.5 The developing web	359
		Summary and key points	361
		Further reading	361
		Web links	361
		Comments on challenges	361
13 Multimodal interface design	288		
Aims	288	16 Collaborative environments	363
13.1 Introduction	289	Aims	363
13.2 Interacting in mixed reality	291	16.1 Introduction	364
13.3 Using sound at the interface	294	16.2 Issues for cooperative working	365
13.4 Tangible interaction	298	16.3 Technologies to support cooperative working	369
13.5 Gestural interaction and surface computing	302	16.4 Collaborative virtual environments	377
Summary and key points	305	16.5 Case study: developing a collaborative tabletop application	379
Exercises	305	Summary and key points	382
Further reading	305	Exercises	383
Web links	306	Further reading	383
Comments on challenges	306	Web links	383
		Comments on challenges	383
		17 Agents and avatars	385
		Aims	385
Part III		17.1 Agents	386
Contexts for designing interactive systems	307	17.2 Adaptive systems	388
Introduction to Part III	308	17.3 An architecture for agents	390
		17.4 Applications of agent-based interaction	397
14 Designing websites	310	17.5 Avatars and conversational agents	400
Aims	310	Summary and key points	408
14.1 Introduction	311	Exercises	408
14.2 Website development	312	Further reading	408
14.3 The information architecture of websites	318	Web links	409
14.4 Navigation design for websites	328	Comments on challenges	409
14.5 Case study: designing the Robert Louis Stevenson website	331		

18 Ubiquitous computing	410	21.2 Memory	469
Aims	410	21.3 Attention	474
18.1 Ubiquitous computing	411	21.4 Human error	483
18.2 Information spaces	416	Summary and key points	486
18.3 Blended spaces	420	Exercises	486
18.4 Home environments	425	Further reading	487
18.5 Navigating in wireless sensor networks	429	Web links	487
Summary and key points	432	Comments on challenges	487
Exercises	433	22 Affect	489
Further reading	433	Aims	489
Web links	433	22.1 Introduction	490
Comments on challenges	433	22.2 Psychological theories of emotion	491
19 Mobile computing	435	22.3 Detecting and recognizing emotions	497
Aims	435	22.4 Expressing emotion	501
19.1 Introduction	436	22.5 Potential applications and key issues for further research	504
19.2 Context awareness	437	Summary and key points	506
19.3 Understanding in mobile computing	439	Exercises	506
19.4 Designing for mobiles	441	Further reading	506
19.5 Evaluation for mobile computing	443	Web links	507
Summary and key points	448	Comments on challenges	507
Exercises	448	23 Cognition and action	508
Further reading	448	Aims	508
Web links	448	23.1 Human information processing	509
Comments on challenges	449	23.2 Situated action	512
20 Wearable computing	450	23.3 Distributed cognition	514
Aims	450	23.4 Embodied cognition	516
20.1 Introduction	451	23.5 Activity theory	519
20.2 Smart materials	455	Summary and key points	525
20.3 Material design	458	Exercises	525
20.4 From materials to implants	460	Further reading	525
Summary and key points	461	Web links	526
Exercises	462	Comments on challenges	526
Further reading	462	24 Social interaction	528
Comments on challenges	462	Aims	528
Part IV		24.1 Introduction	529
Foundations of designing interactive systems	463	24.2 Human communication	529
Introduction to Part IV	464	24.3 People in groups	536
21 Memory and attention	466	24.4 Presence	542
Aims	466	24.5 Culture and identity	546
21.1 Introduction	467	Summary and key points	548
		Exercises	548
		Further reading	548
		Web links	549
		Comments on challenges	549

25 Perception and navigation	550	Exercises	569
Aims	550	Further reading	570
25.1 Introduction	551	Web links	570
25.2 Visual perception	551	Comments on challenges	570
25.3 Non-visual perception	559	References	571
25.4 Navigation	563	Index	587
Summary and key points	569
