Smart Education and e-Learning 2019

Springer

Contents

Part I Smart Education

1 Smart University: A Validation of "Smartness Features—Main Components" Matrix by Real-World Examples and Best Practices from Universities Worldwide 3
Vladimir L. Uskov, Jeffrey P. Bakken, Kaustubh Gayke, Divya Jose, Maria F. Uskova and Suma Sri Devaguptapu

2 Quantitative Follow-Up of MOOC Students Using Big Data Techniques 19
Jean-Pierre Gerval and Matthieu Saumard

3 Classification of University Students Attending Computing Classes Using a Self-assessment Questionnaire 29
Tadanari Taniguchi, Yukiko Maruyama, Daisaku Kurita and Makoto Tanaka

4 Smart Education in an Interconnected World: Virtual, Collaborative, Project-Based Courses to Teach Global Software Engineering 39
Daniel Moritz Marutschke, Victor Kryssanov, Hapugahage Thilak Chaminda and Patricia Brockmann

5 Smarter Education: Leveraging Stakeholder Inputs to Develop Work Ready Curricula 51
Jessica Borg, Christina M. Scott-Young and Michelle Turner

Part II Smart e-Learning

6 Teaching Culture and Literature of German-Speaking Countries with the Support of Virtual Learning Environment in Reflection and Self-reflection of Students of Management of Tourism—A Case Study 65
Blanka Klímová and Ilona Semrádová

7 Sampling and Analyzing Statistical Data to Predict the Performance of MOOC 77
Lubov S. Lisitsyna and Svyatoslav A. Oreshin

8 The Development of Classroom Research Skills of Online Lessons Usage of a Google Classroom 87
Chaiwat Waree

9 Interculturality in Blended Learning: Challenges of Electronic Communication 97
Marcel Pikhart

10 Machine Learning Approach of Predicting Learning Outcomes of MOOCs to Increase Its Performance 107
Lubov S. Lisitsyna and Svyatoslav A. Oreshin

11 A Development of Instructional Games for Education Students . . . 117
Chaiwat Waree

12 The Methodology of Development of Electronic Educational Resources for Learning of General Scientific Disciplines in Non-native Language 127
Marina V. Lapenok, Anna M. Lozinskaya, Lidia G. Shestakova, Ludmila V. Voronina, Petr V. Zuev and Olga M. Patrusheva

13 Visualization of Learning Activities in Classroom Blended with e-Learning System 139
Kai Li

14 Dosage Effects of CAI on Literacy Skills 149
Haya Shamir, Kathryn Feehan, David Pocklington and Erik Yoder

15 Construction of a Socio-affective Profile Model of Students in a Virtual Learning Environment 159
Carla Barvinski, Gislaine Ferreira, Leticia Machado, Magali Longhi and Patricia Behar

16 Smart e-Learning in the Preparation of Novice Pop Vocalists in the University 169
Svetlana A. Konovalova, Nataliya G. Tagiltseva, Lada V. Matveeva, Anastasiya I. Suetina, Oksana A. Ovsyannikova and Sergey I. Mokrousov

17 Communication with Students in Smart e-Learning System Using LMS Moodle 177
Leonid L. Khoroshko, Maxim A. Vikulin, Vladimir M. Kvashnin and Olga S. Kostykova

Part III Smart Pedagogy

18 Smart Learning Objects for Online and Blended Learning Approach 189
Danguole Rutkauskiene, Daina Gudoniene, Reda Bartkute and Greta Volodzkaite

19 Using Ontology Engineering to Design an Artificial Intelligence Course 201
Tatiana Albertovna Gavrilova and Liudmila Kokoulina

20 Development and Implementation of BIPV Courseware for Higher Education and Professionals 209
Momir Tabakovic, Hubert Fechner, Joost van Leeuwen, Eelke Bontekoe, Wilfried van Sark, Atse Louwen, Sofia Arancon, Ingrid Weiss, George Georghiou, George Makrides, Maria Hadjipanayi, Eliza Loucaidou and Monica Ioannidou

21 An Engineering Educational Program Using "Twin Rotor MIMO System" Laboratory Platform 219
Sergey Vrazhevsky, Artem Kremlev and Alexey Margun

22 Competency-Based Approach Teaching Software Engineering 231
Larissa Zaitseva and Boriss Misnevs

23 Randomized Controlled Trial of Kindergarten Students Using Literacy Technology 243
Haya Shamir, Erik Yoder, Kathryn Feehan and David Pocklington

Part IV Smart Education: Systems and Technology

24 Mandatory Matching Between Microelectronics Industry and Higher Education in Engineering Toward a Digital Society 255
Olivier Bonnaud

25 An Approach to Educational Data Mining Model Accuracy Improvement Using Histogram Discretization and Combining Classifiers into an Ensemble 267
Gabrijela Dimić, Dejan Rančić, Olivera Pronić-Rančić and Danijela Milošević

26 Performance Evaluation for Four Types of Machine Learning Algorithms Using Educational Open Data 281
Yuki Terawaki, Teruhiko Unoki, Toshiyasu Kato and Yasushi Kodama

27 Moving from Hardcopy to Online Submission with a Learning Analytics Enriched Rubric—LAe-R: Students' Perspective 291
Besma Allagui

28 Use of Mobile Devices—A Survey Study 303
Petra Poulová, Blanka Klímová and Daniela Pulkrábková

29 SEMOGRAPH Information System as a Platform for Network-Based Linguistic Research: A Case Study of Verbal Behavior of Social Network Users 313
Dmitriy Baranov, Konstantin Belousov, Elena Erofeeva and Yuliya Leshchenko

30 Mobile Application as Appropriate Support for the Retention of New English Words and Phrases in English-Language Learning 325
Blanka Klímová

31 Route Navigation System—An App-Based Learning Tool for Bus Drivers 335
Hannes Walz and Gudrun Görlitz

32 Information Technology and Teaching Culture: Application in Classroom 343
Thu Thi Hong Nguyen and Tri Minh Nguyen

33 Overview of Recommendation Systems 357
Selma Benkessirat, Narhimène Boustia and Nachida Rezoug

Part V Smart Education: Case Studies and Research

34 Upgrading How Technology Is Taught in Undergraduate Education, a Case Study 375
Heather N. Yates, Sreemala Das Majumder and Mark H. Pruitt

35 Teaching Entrepreneurship and Innovation to University Students 389
Geoffrey A. Wright

36 Some Aspects of Students' Professional Competence Formation on the Basis of Implementation of Interdisciplinary Links 399
Natalya Prokofyeva, Sabina Katalnikova and Viktorija Boltunova

37 Reflection of Students' Language Needs Analysis in the e-Course—Comparative Study 409
Miloslava Cerna and Petra Poulova

38 Investigation into Parents' Impressions of Computer Programming with Comparisons Before and After a Programming Workshop 421
Yukiko Maruyama

39 The Impact of Feedback on the Structuring Process of Study Courses 433
Natalya Prokofyeva, Marina Uhanova, Oksana Zavjalova and Viktorija Boltunova

Part VI Students with Disabilities and Smart Education/University

40 Analysis and Classification of University Centers for Students with Disabilities 445
Jeffrey P. Bakken, Nivee Varidireddy and Vladimir L. Uskov

41 Augmented Reality as a Higher Education Form for Students with Delimited Ability 461
Eva Pajorová and Ladislav Hluchý

42 Smart University: Software/Hardware Systems for College Students with Severe Motion/Mobility Issues 471
Jeffrey P. Bakken, Nivee Varidireddy and Vladimir L. Uskov

43 Design Guidelines for Serious Games Targeted to People with Autism 489
Stavros Tsikinas and Stelios Xinogalos

44 Making Your Classroom Smart: Universal Design for Learning and Technology 501
Carrie Anna Courtad

45 Text-to-Voice and Voice-to-Text Software Systems and Students with Disabilities: A Research Synthesis 511
Jeffrey P. Bakken, Vladimir L. Uskov and Nivee Varidireddy

Part VII Mathematical Modelling of Smart Education and Economics of Smart University

46 Testing as a Feedback in a Smart University and as a Component of the Identification of Smart Systems 527
Natalia A. Serdyukova, Vladimir I. Serdyukov and Sergey S. Neustroev

47 Smart University Development Evaluation Models 539
Lyudmila V. Glukhova, Svetlana D. Syrotyuk, Anna A. Sherstobitova and Svetlana V. Pavlova

48 Modeling of Scientific Intercultural Communication of the Teaching Staff at Smart University 551
Svetlana A. Gudkova, Tatiana S. Yakusheva, Anna A. Sherstobitova and Valentina I. Burenina

49 Modeling Smart Learning Processes Based on Educational Data Mining Tools 561
Yana S. Mitrofanova, Anna A. Sherstobitova and Olga A. Filippova

50 Modeling the Assessment of Definition of a Smart University Infrastructure Development Level 573
Yana S. Mitrofanova, Anna A. Sherstobitova and Olga A. Filippova

51 Smart University: Assessment Models for Resources and Economic Potential 583
Leyla F. Berdnikova, Anna A. Sherstobitova, Olga V. Schnaider, Natalia O. Mikhalenok and Olga E. Medvedeva

52 Identification of Key Factors for a Development of Smart Organization 595
Lyudmila V. Glukhova, Svetlana D. Syrotyuk, Anna A. Sherstobitova and Svetlana A. Gudkova

53 Application of Multivariate Statistical Methods for Assessment of Educational Competencies 609
Olga A. Kuznetsova, Sabina S. Palferova and Anna A. Sherstobitova

54 Modeling, Selection, and Teaching Staff Training at Higher School 619
Svetlana A. Gudkova, Tatiana S. Yakusheva, Anna A. Sherstobitova and Valentina I. Burenina

55 The Remote Process Support for Collaborative Work 631
Anna A. Sherstobitova, Lyudmila V. Glukhova, Irina G. Sergeeva and Natalya Y. Tihanova
