Boca Raton London New York

CRC Press is an imprint of the
Taylor & Francis Group, an **informa** business

AN AUERBACH BOOK

Contents

- List of Figures..... xv
- List of Tables xvii
- Preface xix
- Acknowledgments xxiii
- Author xxv
- Other Books by Vivek Kale xxvii

- 1 VUCA Ecosystem 1**
 - 1.1 VUCA Ecosystem 1
 - 1.2 Four Industrial Generations 3
 - 1.3 Trends 4
 - 1.3.1 Social Trends 4
 - 1.3.2 Organizational Trends 5
 - 1.3.3 Business Model Trends 7
 - 1.3.4 Technology Trends..... 8
 - 1.4 From Products to Services to Experiences..... 9
 - 1.5 Technology Advancements 10
 - 1.6 Digital Economy 14
 - 1.7 Intelligent Analysis 17
 - 1.7.1 Intelligence Maturity Model (IMM)..... 19
 - 1.7.1.1 Data 20
 - 1.7.1.2 Communication 20
 - 1.7.1.3 Information..... 20
 - 1.7.1.4 Concept 21
 - 1.7.1.5 Knowledge 21
 - 1.7.1.6 Intelligence..... 23
 - 1.7.1.7 Wisdom 24
 - 1.8 SMOCT Technologies 24
 - 1.9 Summary..... 26

- 2 Aligning Business and IT Strategy..... 27**
 - 2.1 Business Strategy 28
 - 2.1.1 Evolution of Strategy Management 28

	2.1.2.3	Porter's Framework of Generic Strategies	34
	2.1.2.4	Porter's Value Chain.....	36
2.2		Information Technology and Information Systems (IT/IS).....	40
	2.2.1	Evolution of IT	41
	2.2.2	Evolution of IS	43
	2.2.3	IS/IT Governance	44
	2.2.3.1	Alignment IT/IS with Business Strategy	45
	2.2.3.2	Aligning Business Goals and IT Goals.....	48
	2.2.3.3	Aligning Business with IT/IS and Business Value from IT	49
	2.2.3.4	Governance Frameworks.....	49
2.3		Summary.....	53
3		Enterprise Security	55
3.1		Concept of Security	56
	3.1.1	The Triad of Confidentiality, Integrity, and Availability.....	56
	3.1.1.1	Confidentiality.....	56
	3.1.1.2	Integrity	56
	3.1.1.3	Availability	57
	3.1.2	Types of Attacks.....	57
	3.1.2.1	Interception.....	57
	3.1.2.2	Interruption	57
	3.1.2.3	Modification	57
	3.1.2.4	Fabrication	58
	3.1.3	Threats, Vulnerabilities, and Risk	58
	3.1.3.1	Threats	58
	3.1.3.2	Vulnerabilities	58
	3.1.3.3	Risk.....	58
	3.1.4	Controls.....	59
	3.1.4.1	Physical	59
	3.1.4.2	Logical	59
	3.1.4.3	Administrative	59
	3.1.5	Defense in Depth.....	60
3.2		Identification	60
	3.2.1	Identity Verification	62
	3.2.2	Identity Falsification	63
3.3		Authentication.....	63
	3.3.1	Mutual Authentication	66
	3.3.2	Multi-Factor Authentication	66
3.4		Authorization	66
3.5		Access Control.....	67
	3.5.1	Access Control Models.....	70
3.6		Accountability	72

3.6.1	Non-repudiation	73
3.6.2	Deterrence	73
3.6.3	Intrusion Detection and Prevention	73
3.6.4	Admissibility of Records	74
3.7	Audit	74
3.7.1	Logging.....	75
3.7.2	Monitoring	76
3.7.3	Assessments.....	76
3.8	Summary.....	77
4	Process-Driven Organization	79
4.1	Process-Oriented Enterprise	80
4.1.1	Value-Add Driven Enterprise	81
4.2	Concept of Business Process Management (BPM).....	82
4.2.1	Business Process.....	84
4.3	Business Process Management (BPM)	85
4.4	Enterprise BPM Methodology	87
4.4.1	Strategic Planning for Enterprise BPM	89
4.4.1.1	Identifying the Business Processes in the Company	90
4.4.2	Selecting Business Processes for BPM	90
4.4.3	Creating Process Maps.....	91
4.4.4	Analyzing Processes for Breakthrough Improvements.....	92
4.4.5	Innovative Breakthrough Improvement in Processes.....	93
4.4.6	Implementing Designed Processes	93
4.4.7	Measuring the Performance of Designed Processes	94
4.5	Business Process Reengineering (BPR)	94
4.6	Management by Collaboration (MBC).....	98
4.7	Collaboration Technologies	100
4.7.1	Synchronous Communication Tools.....	103
4.7.2	Asynchronous Communication Tools.....	104
4.8	Collaborative Systems and Tools.....	105
4.8.1	Skype	105
4.8.2	Dropbox.....	105
4.8.3	Google Drive and Google Docs	105
4.8.4	Microsoft SkyDrive.....	106
4.8.5	Microsoft OneNote.....	106
4.9	Summary.....	107
5	Analytics.....	109
5.1	Decisions	110
5.1.1	Types of Decisions	110
5.1.2	Scope of Decisions	111
5.2	Decision-Making Process	112

- 5.3 Decision-Making Techniques 114
 - 5.3.1 Mathematical Programming 114
 - 5.3.2 Multi-Criteria Decision Making 115
 - 5.3.3 Case-Based Reasoning 115
 - 5.3.4 Data Warehouse and Data Mining 117
 - 5.3.5 Decision Tree 118
 - 5.3.6 Fuzzy Sets and Systems 118
- 5.4 Decision-Support Systems 118
 - 5.4.1 Multi-Source Driven DSSs 119
 - 5.4.2 Generic DSS Architecture 121
- 5.5 Analytics 126
 - 5.5.1 Descriptive Analytics 127
 - 5.5.2 Predictive Analytics 127
 - 5.5.3 Prescriptive Analytics 127
- 5.6 Data Science Techniques 128
 - 5.6.1 Database Systems 128
 - 5.6.2 Statistical Inference 128
 - 5.6.3 Regression and Classification 129
 - 5.6.4 Data Mining and Machine Learning 130
 - 5.6.5 Data Visualization 131
 - 5.6.6 Text Analytics 131
 - 5.6.7 Time Series and Market Research Models 133
- 5.7 Snapshot of Data Analysis Techniques and Tasks 135
- 5.8 Summary 139

6 Cloud Computing Basics 141

- 6.1 Cloud Definition 142
- 6.2 Cloud Characteristics 142
 - 6.2.1 Cloud Storage Infrastructure Requirements 145
- 6.3 Cloud Delivery Models 146
 - 6.3.1 Infrastructure as a Service (IaaS) 147
 - 6.3.2 Platform as a Service (PaaS) 148
 - 6.3.3 Software as a Service (SaaS) 149
- 6.4 Cloud Deployment Models 150
 - 6.4.1 Private Clouds 150
 - 6.4.2 Public Clouds 150
 - 6.4.3 Hybrid Clouds 152
 - 6.4.4 Community Clouds 152
- 6.5 Cloud Benefits 152
- 6.6 Cloud Technologies 155
 - 6.6.1 Virtualization 155
 - 6.6.1.1 Characteristics of Virtualized Environment 157

6.6.2	Service-Oriented Computing	160
6.6.2.1	Advantages of SOA	161
6.6.2.2	Layers in SOA	163
6.6.3	Business Processes with SOA	164
6.6.3.1	Process	165
6.6.3.2	Workflow	167
6.6.3.3	Business Process Management (BPM).....	168
6.6.3.4	Business Processes via Web Services	169
6.7	Summary.....	171
7	Big Data Computing	173
7.1	Big Data	174
7.1.1	What Is Big Data?.....	174
7.1.1.1	Data Volume.....	174
7.1.1.2	Data Velocity	177
7.1.1.3	Data Variety.....	178
7.1.1.4	Data Veracity	178
7.1.2	Common Characteristics of Big Data Computing Systems	179
7.1.3	Big Data Appliances.....	182
7.2	Tools and Techniques of Big Data	183
7.2.1	Processing Approach	183
7.2.2	Big Data System Architecture	185
7.2.2.1	Brewer's CAP (Consistency Availability Partition) Theorem.....	185
7.2.2.2	BASE (Basically Available, Soft State, Eventual Consistency).....	189
7.2.2.3	Functional Decomposition.....	190
7.2.2.4	Master-Slave Replication.....	190
7.2.3	Row Partitioning or Sharding.....	190
7.2.4	Row versus Column-Oriented Data Layouts.....	191
7.2.5	NoSQL Data Management	192
7.2.6	In-Memory Computing	194
7.2.7	Developing Big Data Applications	194
7.3	NoSQL Databases	196
7.3.1	Column-Oriented Stores or Databases.....	196
7.3.2	Key-Value Stores (K-V Store) or Databases.....	196
7.3.3	Document-Oriented Databases.....	197
7.3.4	Graph Stores or Databases	199
7.4	Aadhaar Project.....	199
7.5	Summary.....	202

8	Web Applications	203
8.1	Web-Based Applications	203
8.1.1	Reference Architecture.....	204
8.1.1.1	User Interaction Architecture.....	205
8.1.1.2	Service-Based Architecture.....	205
8.1.1.3	Business Object Architecture	206
8.1.2	Realization of the Reference Architecture in J2EE.....	207
8.1.2.1	JavaServer Pages and Java Servlets as the User Interaction Components	207
8.1.2.2	Session Bean EJBs as Service-Based Components.....	207
8.1.2.3	Entity Bean EJBs as the Business Object Components.....	208
8.1.2.4	Distributed Java Components	208
8.1.2.5	J2EE Access to the EIS (Enterprise Information Systems) Tier.....	208
8.1.3	Model–View–Controller Architecture.....	209
8.2	Evolution of the Web.....	209
8.2.1	Web 1.0.....	209
8.2.2	Web 2.0	210
8.2.3	Web 3.0	214
8.2.4	Mobile Web	215
8.2.5	The Semantic Web	215
8.2.6	Rich Internet Applications	216
8.3	Web Applications	217
8.3.1	Web Applications Dimensions	218
8.4	Search Analysis.....	220
8.4.1	SLA Process	221
8.5	Web Analysis.....	224
8.5.1	Veracity of Log Files data	227
8.5.1.1	Unique Visitors	227
8.5.1.2	Visitor Count	228
8.5.1.3	Visit Duration.....	228
8.5.2	Web Analysis Tools.....	228
8.5.3	Common Analysis and Reports	229
8.6	Summary.....	231
9	Social Networks.....	233
9.1	Networks.....	234
9.1.1	Concept of Networks.....	234
9.1.2	Principles of Networks	235
9.1.2.1	Metcalf’s Law	235
9.1.2.2	Power Law.....	236

9.1.2.3	Small Worlds Networks (SWNs).....	236
9.2	Computer Networks.....	237
9.2.1	Internet.....	237
9.2.2	World Wide Web (WWW).....	238
9.3	Social Networks.....	239
9.3.1	Popular Social Networks.....	244
9.3.1.1	LinkedIn.....	244
9.3.1.2	Facebook.....	244
9.3.1.3	Twitter.....	246
9.3.1.4	Google+.....	246
9.3.1.5	Other Social Networks.....	247
9.4	Social Network Analysis (SNA).....	248
9.5	Text Analysis.....	250
9.5.1	Defining Text Analysis.....	251
9.5.1.1	Document Collection.....	251
9.5.1.2	Document.....	252
9.5.1.3	Document Features.....	252
9.5.1.4	Domain Knowledge.....	255
9.5.1.5	Search for Patterns and Trends.....	256
9.5.1.6	Results Presentation.....	256
9.6	Sentiment Analysis.....	257
9.6.1	Sentiment Analysis and Natural Language Processing (NLP).....	258
9.6.2	Applications.....	260
9.7	Summary.....	261
10	Mobile Applications.....	263
10.1	Mobile Computing Applications.....	263
10.1.1	Generations of Communication Systems.....	265
10.1.1.1	1st Generation: Analog.....	265
10.1.1.2	2nd Generation: CDMA, TDMA and GSM.....	265
10.1.1.3	2.5 Generation: GPRS, EDGE and CDMA 2000.....	267
10.1.1.4	3rd Generation: wCDMA, UMTS, and iMode.....	268
10.1.1.5	4th Generation.....	268
10.1.2	Mobile Operating Systems.....	268
10.1.2.1	Symbian.....	270
10.1.2.2	BlackBerry OS.....	270
10.1.2.3	Google Android.....	271
10.1.2.4	Apple iOS.....	271
10.1.2.5	Windows Phone.....	271
10.2	Mobile Web Services.....	273
10.2.1	Mobile Field Cloud Services.....	277

10.3	Context-Aware Mobile Applications	279
10.3.1	Ontology-Based Context Model	280
10.3.2	Context Support for User Interaction.....	281
10.4	Mobile Web 2.0.....	282
10.5	Mobile Analytics	284
10.5.1	Mobile Site Analytics	284
10.5.2	Mobile Clustering Analysis	284
10.5.3	Mobile Text Analysis.....	285
10.5.4	Mobile Classification Analysis.....	286
10.5.5	Mobile Streaming Analysis	287
10.6	Summary.....	288
11	Internet of Things (IoT) Technologies.....	289
11.1	Internet of Things.....	290
11.1.1	IoT Building Blocks	292
11.1.2	IoT Architecture.....	295
11.2	RFID (Radio Frequency Identification).....	297
11.3	Sensor Networks.....	299
11.3.1	Wireless Networks	299
11.3.2	Sensors	304
11.3.3	Wireless Sensor Networks	309
11.3.3.1	WSN Characteristics.....	312
11.3.3.2	WSN Design Challenges.....	313
11.3.3.3	WSN Design Objectives	314
11.3.3.4	WSN Architecture	315
11.4	Sensor Data Processing.....	324
11.4.1	Sensor Data-Gathering and Data-Dissemination Mechanisms.....	324
11.5	Sensor Database.....	325
11.6	Summary.....	328
	Appendix A: Internet as Extended Brain.....	329
	References	367
	Index	369
