

Woodhead Publishing Series in Food Science, Technology and Nutrition:  
Number 219

# **Rice quality**

## **A guide to rice properties and analysis**

**Kshirod R. Bhattacharya**

Oxford   Cambridge   Philadelphia   New Delhi

# Contents

<i>Author contact details</i> .....	<i>ix</i>
<i>Woodhead Publishing Series in Food Science, Technology and Nutrition</i> .....	<i>xi</i>
<i>Preface</i> .....	<i>xxi</i>
<i>Acknowledgements</i> .....	<i>xxiii</i>
<b>1 An introduction to rice: its qualities and mysteries</b> .....	<b>1</b>
1.1 Rice in history .....	2
1.2 More rice paradoxes .....	8
1.3 Rice data and the tales they tell .....	12
1.4 Rice quality .....	18
1.5 References .....	25
<b>2 Physical properties of rice</b> .....	<b>26</b>
2.1 Introduction .....	27
2.2 Grain appearance .....	32
2.3 Density and friction .....	40
2.4 Effect of moisture content .....	46
2.5 Miscellaneous properties .....	50
2.6 Chalky grains .....	53
2.7 References .....	57
<b>3 Milling quality of rice</b> .....	<b>61</b>
3.1 Milling of rice .....	62
3.2 Grain cracking or fissuring at or around harvest .....	65
3.3 Drying of rice .....	72
3.4 Why the rice grain fissures .....	73
3.5 Miscellaneous factors that affect milling quality of rice .....	84
3.6 Fundamental cause of rice breakage: interrelationship and synergy between different factors .....	90
3.7 References .....	95

<b>4</b>	<b>Degree of milling (DM) of rice and its effect .....</b>	<b>100</b>
4.1	Milling paddy grain and how much to mill .....	100
4.2	Effect of degree of milling (DM) on rice quality .....	106
4.3	References .....	114
<b>5</b>	<b>Ageing of rice .....</b>	<b>116</b>
5.1	Introduction .....	117
5.2	Consumers' perception of changes in rice behaviour during storage.....	119
5.3	Changes in physiochemical properties of rice during ageing as measured in the laboratory.....	121
5.4	Theories of rice ageing: relation to individual constituents.....	135
5.5	Some final rice paradoxes .....	153
5.6	Can the ageing process be hastened or retarded?.....	155
5.7	References .....	159
<b>6</b>	<b>Cooking quality of rice .....</b>	<b>164</b>
6.1	Introduction .....	164
6.2	Absorption of water by rice during cooking at or near the boiling temperature .....	166
6.3	Hydration at lower temperatures.....	178
6.4	Loss of solids during cooking.....	180
6.5	Effect of presoaking in ambient water on cooking.....	181
6.6	Other changes/events occurring during cooking.....	182
6.7	Laboratory cooking of rice for various tests.....	183
6.8	References .....	189
<b>7</b>	<b>Eating quality of rice .....</b>	<b>193</b>
7.1	Introduction .....	193
7.2	The initiation: the water-uptake paradigm.....	195
7.3	The period of data accumulation: the amylose paradigm.....	196
7.4	Exploration at the molecular level: the amylopectin paradigm.....	213
7.5	Rheology of rice-flour paste.....	224
7.6	Other factors that affect the eating quality of rice.....	229
7.7	Testing for rice quality .....	234
7.8	References .....	238
<b>8</b>	<b>Effect of parboiling on rice quality .....</b>	<b>247</b>
8.1	Introduction: parboiled rice.....	247
8.2	Changes brought about in the rice grain and its constituents during the parboiling process.....	252
8.3	Properties of parboiled rice.....	273
8.4	Effect of rice variety on properties of parboiled rice .....	291
8.5	Products from parboiled rice.....	293
8.6	References .....	293

<b>9</b>	<b>Product-making quality of rice .....</b>	<b>298</b>
9.1	Introduction .....	298
9.2	Table rice.....	301
9.3	Rice flour and products thereof.....	307
9.4	Rice breakfast cereals and snacks made from wholegrain rice.....	319
9.5	Other rice products.....	330
9.6	References .....	332
<b>10</b>	<b>Speciality rices .....</b>	<b>337</b>
10.1	Introduction .....	337
10.2	Aromatic rices .....	339
10.3	Basmati.....	348
10.4	Jasmine.....	361
10.5	Other speciality rices.....	364
10.6	References .....	372
<b>11</b>	<b>Nutritional quality of rice.....</b>	<b>377</b>
11.1	Introduction: why do we have to eat?.....	378
11.2	Nutritive value of rice is not a small matter.....	378
11.3	The perspective of nutrition of the poor rice-eater .....	383
11.4	Wholegrains versus refined grains: two views.....	394
11.5	No, wholegrains confer untold benefits .....	397
11.6	The perspective of the nutritive value of individual rice constituents.....	401
11.7	Biotechnological approach to upgrade the nutritive value of rice.....	405
11.8	References .....	407
<b>12</b>	<b>Rice breeding for desirable quality.....</b>	<b>410</b>
12.1	Introduction .....	410
12.2	Plant characteristics for optimum harvest.....	413
12.3	Physical and morphological properties of the paddy grain that affect the quality of the final product.....	416
12.4	Susceptibility of the rice grain to cracking .....	423
12.5	End-use quality.....	425
12.6	Conclusions .....	428
12.7	References .....	429
<b>13</b>	<b>Analysis of rice quality .....</b>	<b>431</b>
13.1	Introduction .....	431
13.2	Sample preparation.....	433
13.3	Estimation of moisture .....	440
13.4	Milling quality.....	446
13.5	Physical properties .....	450
13.6	Degree of milling (DM) of rice .....	461
13.7	Hydration and cooking quality of rice .....	474

viii Contents

13.8	Alkali digestion score.....	482
13.9	Gel mobility test.....	486
13.10	Estimation of amylose content.....	487
13.11	Hot-water-insoluble amylose content.....	491
13.12	Pasting characteristics .....	492
13.13	Gelatinisation temperature (GT) .....	504
13.14	Tests for eating quality of rice .....	507
13.15	Testing for aroma of scented rice varieties .....	512
13.16	Various constituents .....	514
13.17	Tests for parboiled rice.....	514
13.18	References .....	521
<b>Appendix: some selected rice quality test procedures .....</b>		<b>531</b>
A.1	Physical properties .....	531
A.2	Milling of rice, and degree of milling (DM) .....	536
A.3	Estimation of moisture .....	542
A.4	Hydration and cooking parameters .....	545
A.5	Amylose content.....	549
A.6	Alkali digestion score.....	552
A.7	Gelatinisation temperature (GT) .....	553
A.8	Gel mobility test.....	556
A.9	Pasting behaviour: Brabender viscography.....	557
A.10	Instrumental measurement of cooked-rice texture using the TA.HDi Texture Analyser.....	559
A.11	Aroma in scented rice .....	561
A.12	Tests for parboiled rice.....	561
A.13	References .....	562
