Strategic Supply Chain Management

Contents

1	Introduction to Supply Chain Management	1
1.1	What Is Supply Chain?	1
1.2	Value Chain and Supply Chain	3
1.3	A Generic View of Supply Chain	4
1.3.1	A Simple Example of Supply Chain	5
1.4	The Umbrella of Supply Chain	6
1.5	Management Activities	6
1.5.1	Purchasing	6
1.5.2	Inbound Transportation	7
1.5.3	Quality Control	7
1.5.4	Planning of Demand and Supply	7
1.5.5	Receiving, Storage and Material Handling	7
1.5.6	Material Control or Inventory Control	8
1.5.7	Order Processing	8
1.5.8	Production Scheduling, Planning and Control	8
1.5.9	Warehousing or Distribution	8
1.5.10	Shipping	8
1.5.11	Customer Service	9
1.6	Supply Chain Integrations	9
1.6.1	Example of Korean Manufacturer	9
1.7	Why Vertical Integration Failed	10
1.8	What Is the Bullwhip Effect?	10
1.8.1	The Causes of Bullwhip Effect	11
1.9	The Snowball Effect	12
1.10	The Importance of Information Sharing	13
1.11	The Beginnings of SCM in the USA	14
1.12	3PL Logistics and 4PL Logistics	16
1.13	Latest Trend in Supply Chain Management	17
1.13.1	Supply Chain Responsiveness	18
1.13.2	Reducing Total SCM Costs	18
1.13.3	Trust Building and Collaboration	19

1.13.4	Green Supply Chain Management	19
1.13.5	Expanding the Supply Chain	21
	Discussion Questions	21
	References	22
2	Key Issues in Logistics and Supply Chain	23
2.1	Network Configuration and Competition	23
2.2	Information Sharing	26
2.3	Developing Collaborative Planning Activities	28
2.4	Supplier Management	31
2.5	Approaching the Marketplace	32
2.6	Key Issues and Challenges for Logistics	32
2.6.1	Supply	33
2.6.2	Distribution	33
2.6.3	External Environment	34
2.6.4	Retail	35
2.6.5	Consumer	35
	Discussion Questions	36
	References	36
3	Global Sourcing	39
3.1	Difference Between International Purchasing and Global Sourcing	40
3.1.1	Overview of Global Sourcing	40
3.2	Why Global Sourcing?	41
3.3	Information of Global Supplier	45
3.3.1	International Industrial Directories	45
3.3.2	Trade Shows	45
3.3.3	Trading Firms	45
3.3.4	Third-Party Services	46
3.4	Supplier Selection Issues	46
3.4.1	Cultural Differences	47
3.4.2	Communication Differences	48
3.5	Logistical Problems	48
3.5.1	Legal Issues	50
3.5.2	Organizational Issues	51
3.6	The Selection and Evaluation Process	52
3.6.1	Recognize the Need for Supplier Selection	53
3.6.2	Classify Key Sourcing Requirements	53
3.6.3	Determine Sourcing Strategy	53
3.6.4	Identify Potential Sources of Supply	54
3.6.5	Limit Suppliers in Selection Pool	58
3.6.6	Determine Method of Supplier Selection and Evaluation	60
3.6.7	Select Supplier and Reach Contract	62

- 3.7 Key Supplier Evaluation Criteria 62
 - 3.7.1 Management Capability 62
 - 3.7.2 Capabilities of Employees 63
 - 3.7.3 Cost Structure. 64
